## Areas of Use

## Care Instructions

Vacuum your rug regularly as shedding of loose fibres will occur with a new rug (do not use a rotating or brush head on the vacuum cleaner). Promptly clean spills by blotting with a clean, undyed cloth. Do not dry clean or use harsh chemicals that could damage or fade your rug. Never fold your rug for storage or keep in an airtight bag. Avoid direct or continuous exposure to sunlight and rotate your rug to promote even wear. Professional cleaning is recommended on occasion to ensure the long life of your rug.

## Manufacturing Variations

Size - Can vary by +/- 3%.

Colour - Rugs are made from natural fibres. Every effort is made to ensure there is minimal colour variation however some variation can be expected.

All cut pile rugs will exhibit light and dark patches over time, as the fibres bend and reflect the light differently.

Shedding - Natural fibre rugs will initially shed loose fibres, which can be hastened by regular vacuuming.
